🛒 Supermarket Analysis

📊 Dataset Information

- **Branch:** The store branch where the sale occurred 🏢
- **City:** The city where the sale took place 🌆
- **Customer type:** Type of customer (e.g., Member or Non-Member) 👥
- **Gender:** Customer's gender 🚻
- **Product line:** The category of the product sold 🛍️
- **Unit price:** The price per unit of the product 💰
- **Quantity:** The number of units sold 🔢
- **Tax 5%:** 5% tax added to the sale 💸
- **Total:** Total sale amount (price x quantity + tax) 💵
- **Date:** The date of the sale 📅
- **Time:** The time of day when the sale occurred ⏰
- **Payment:** The payment method used (e.g., Credit Card, Cash) 💳
- **cogs:** The cost of goods sold 📦
- **gross margin percentage:** The percentage of profit after product costs 📈
- **gross income:** Total income after deducting costs 💲
- **Rating:** Customer rating for the product (1-5 stars) ⭐

Libraries and Utilities
